# Europa

The WildAx Europa has been designed with detail in mind with a bright and modern feel inside. All areas have been looked at in detail with many new innovations evident in the design. The latest technologies and products are used in Europa, giving it one of the largest payloads of its class with up to 450kg available. There are design features such as the sliding kitchen sink that maximise the worktop space and the unique sliding cupboard doors that show the amount of thought that has gone into this design.

The main seating area is a large and comfortable area which transforms easily into either 2 single beds or a large 6ft 4in double. The combination of lots of side and roof windows and a bright modern colour scheme enhance the open feeling in the van. The washroom is made from an extremely hard wearing fibreglass and uses our unique waterproof door which removes the need for a shower curtain making the room large enough for a comfortable shower. The washroom is also fitted with multiple accessories and a useful storage cupboard. The latest Thetford cassette toilet with trolley cassette is fitted for ease of use.

**Base Vehicle**

Renault Master LM35 130bhp • Passenger air bag • Bluetooth  
Electric windows • Cab air conditioning • Cruise control • Rear parking sensors • LED DLRs • Choice of paint colours

Based on the Renault Master van, the Europa is a fast and economical motorhome returning users on test up to 40mpg. With its 6 speed 130Bhp Euro 6 engine and very comfortable driving position long journeys pass with ease.

Your van will be factory ordered to your specification which gives you the ability to choose the van colour and any options that you may wish to have on the base vehicle. At WildAx Motorhomes we are proud to say that we develop a close relationship with every customer. This is due to the detailed and regular communication we have from the moment of order to the day you take ownership of your new motorhome.

WildAx Motorhomes includes everything we think you will need (and many items that others consider optional) in the basic price! We even include all new van fees and road tax – there are no hidden costs at all.

**Price £47,995.00 OTR**
